

From the St. Lucie River at marker R"6" (just west of the ICW), you will turn south into the Manatee Pocket at G"1". **This pocket is a no-wake zone.**

Continue past Sandsprit Park and you will see Sailfish Marina ahead of you. We are the first marina in the pocket. You will soon come to our North Fuel Dock on your starboard side. Continuing further will take you to our South Fuel Dock.

These docks monitor VHF Channel 16 and will switch to working Channel 11 to give you docking instructions.

You may also call the **North Dock at (772) 278-6795** and the **South Dock at (772) 278-6794.**

Attendants are on duty from 7:00 am – 5:00 pm on North and 6:00 am – 6:00 pm on South.

If you arrive during working hours, please check-in with a dock attendant upon arrival. For late arrivals, please check-in with them in the morning.
